

FN SOURCING BD

COMPANY PROFILE

WHO WE ARE

FN SOURCING BD. a leading apparel and textile company in Bangladesh, is your trusted Manufacturer, Sourcing Agent, and Garment Exporter. With a deep understanding of industry needs, a skilled team, and excellent infrastructure, we ensure reliable and high-quality solutions tailored to meet end-users' demands. Pioneering the Export market in just 11 years, we now align with international quality standards, boasting a \$10 million annual turnover and poised for rapid growth.

Representing top labels, our vertically integrated vendor base in Bangladesh ensures exceptional quality. We believe in building enduring alliances through total customer satisfaction in garment production. Our business covers research, design, testing, and inspection across a wide range of garments, including Men's, Ladies, Workwear, Schoolmate, Children wear, Casual wear, Fashion wear, Executive wear, Outer wear, Sportswear, and Active wear. At FN SOURCING BD. our commitment to honesty, integrity, and excellence drives our growth. With vast experience, we offer dedicated and quality-conscious services, efficiently managing clients' buying operations across Asia, Europe, and America.

WHAT WE DO

We Believe in Quality

FN SOURCING BD. devotion extends beyond simply delivering orders; we go into understanding consumer needs through careful questioning. We anticipate trends, offering creative and technical assistance at every stage from washes, colors, and fabrics to sourcing materials and assuring high quality. Our personalized help encompasses fit, design, and thorough product development, assuring a proactive and holistic approach to meeting our clients' specific needs.

We have pride in both the final product and the development process.

We at FN SOURCING BD. are aware of how the fashion industry is always changing. We are elevated by our personnel, who work tirelessly with dependable partner factories. Our success as a worldwide fashion brand is rooted on our love for the individuals we workwith. We think that enthusiasm gives work significance, and we strive to be a positive influence on the world.

In a demanding and fast-paced industry, we support openness and direct communication.

Quality

Control + Assurance

The management of items and their quality are very important to STS Sourcing Ltd.. Our dedication to quality is demonstrated by the methodical and planned operations we perform as part of an all-encompassing quality system. We guarantee that the strict specifications for clothing quality are met. This includes managing raw materials, fabric composition, color integrity, and the careful supervision of production, inspection procedures, and associated services. Ensuring quality is the primary focus of our activities.

FN SOURCING BD. employs stringent quality control methods, including regular inspections to assure on-time delivery and compliance with needed quality standards (AQL 1.0 - 4.0).

FN SOURCING BD. maintains strict standards throughout the manufacturing process, from fabric and trims to processing (printing + dyeing), lab testing (physical + chemical), patterns & fitting, washing, finishing, packing, in-line (10% packed), mid-line (50% packed), and final inspection (100% packed).

FN SOURCING BD has a specialist staff with controllers dedicated to each product category. Our controllers have personal production expertise, ensuring a thorough awareness of the complexities of each product.

Compliance

Social & Technical

FN SOURCING BD. strives to free designers from the limits of physical prototype, harmonizing with industry needs like as time efficiency, cost reduction, and waste minimization.

FN SOURCING BD. makes use of 3D technology, allowing designers and pattern makers to quickly develop precise designs. Digital samples enable real-time feedback and collaborative decision making, bringing stakeholders from all around the world into garment modification and pricing conversations.

FN SOURCING BD. believes that true-to-life 3D samples improve decision dependability. The use of digitally accurate 3D models simplifies and streamlines the design finalization process throughout the business.
